Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2655

In response to applicant's amendment dated August 18, 2004, the following action is taken:

Claims 6, 7, 13, 15 and 18 are rejected for the same reasons set forth in the previous office action mailed May 24, 2004.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 6, 7, 13, 15 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Ishibashi et al (6442114).

The reference shows an light beam source emitting a plurality of light beam spots on the record medium L1-L3, a detection means for receiving the light beams 11a-11c, a signal delay means for delaying on the signals detected by the detection means and not delay one of the other signal detected by the detection means 12a, 12b and non-delayed signal S3.

With respect to the limitation of claim 7-see element PX.

With respect to the limitation of claim 13 see elements L1-L3.

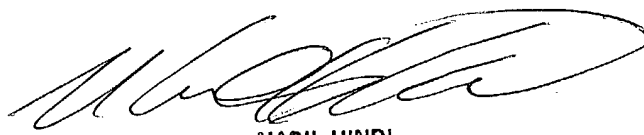

With respect to the limitations of claims 15 and 18 see elements 12a and 12b.

Claims 1-5, 8-12, 14, 16 and 17 are allowed.

Applicant's arguments filed August 18, 2004 have been fully considered but they are not persuasive. Claim 6 is drawn to the limitation " same displacement in a radial direction" and not to the limitation "same track" or "circumferential direction of the disk". Applicant pointed out fig 2 as showing the same radial direction. However fig 7 of the Ishibashi et al reference does disclose the use of light beams in " a same displacement in a radial direction" corresponding to fig 2 of the disclosed invention.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
